

**FIG. 835**

**Nailing Sleeve**

**SERVICE:** For attaching to roof deck to provide a channel for piping, eliminating the need to core drill. Sleeves are made in all heights and diameters with optional tabs to facilitate fastening and an optional cap to keep out wet cement until pipe installation.

**MATERIAL:** Galvanized Sheet Metal or 304/316 Stainless Steel

**FINISH:** Galvanized

**ORDERING:** Specify figure number, diameter, height, type, with or without tabs and material.
